**Advisory Action**

Application No. <b>08/997,706</b>	Applicant(s) <b>Ejiri, Seishi</b>
Examiner <b>Joseph Pokrzywa</b>	Group Art Unit <b>2722</b>

**THE PERIOD FOR RESPONSE: [check only a) or b)]**

a)  expires 6 months from the mailing date of the final rejection.

b)  expires either three months from the mailing date of the final rejection, or on the mailing date of this Advisory Action, whichever is later. In no event, however, will the statutory period for the response expire later than six months from the date of the final rejection.

Any extension of time must be obtained by filing a petition under 37 CFR 1.136(a), the proposed response and the appropriate fee. The date on which the response, the petition, and the fee have been filed is the date of the response and also the date for the purposes of determining the period of extension and the corresponding amount of the fee. Any extension fee pursuant to 37 CFR 1.17 will be calculated from the date of the originally set shortened statutory period for response or as set forth in b) above.

Appellant's Brief is due two months from the date of the Notice of Appeal filed on \_\_\_\_\_ (or within any period for response set forth above, whichever is later). See 37 CFR 1.191(d) and 37 CFR 1.192(a).

Applicant's response to the final rejection, filed on Apr 13, 2000 has been considered with the following effect, but is NOT deemed to place the application in condition for allowance:

The proposed amendment(s):

will be entered upon filing of a Notice of Appeal and an Appeal Brief.

will not be entered because:

- they raise new issues that would require further consideration and/or search. (See note below).
- they raise the issue of new matter. (See note below).
- they are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal.
- they present additional claims without cancelling a corresponding number of finally rejected claims.

NOTE: The added limitations in claims 1, 7, 13, and 17-20 require an additional search, as the addition of an operation unit being a part of the data communication system raises new issues (see attached Office action).

Applicant's response has overcome the following rejection(s):

---

---

Newly proposed or amended claims \_\_\_\_\_ would be allowable if submitted in a separate, timely filed amendment cancelling the non-allowable claims.

The affidavit, exhibit or request for reconsideration has been considered but does NOT place the application in condition for allowance because:

---

---

The affidavit or exhibit will NOT be considered because it is not directed SOLELY to issues which were newly raised by the Examiner in the final rejection.

For purposes of Appeal, the status of the claims is as follows (see attached written explanation, if any):

Claims allowed: \_\_\_\_\_

Claims objected to: \_\_\_\_\_

Claims rejected: 1-20

The proposed drawing correction filed on \_\_\_\_\_  has  has not been approved by the Examiner.

Note the attached Information Disclosure Statement(s), PTO-1449, Paper No(s). \_\_\_\_\_.

## **DETAILED ACTION**

### *Advisory Action*

1. The period for response continues to run SIX MONTHS from the date of the final rejection. Any extension of time must be obtained by filing a petition under 37 CFR 1.136(a) accompanied by the proposed response and the appropriate fee. The date on which the response, the petition, and the fee have been filed is the date of the response and also the date for the purposes of determining the period of extension and the corresponding amount of the fee.

### *Response to Amendment*

2. The amendment filed 4/13/00 under 37 CFR 1.116 in response to the final rejection has been considered but is not deemed to place the application in condition for allowance and will not be entered because:

The proposed amendment raises new issues that would require further consideration and/or search.

Regarding amended *claims 1 and 7*, the limitation of “operation means for inputting a manual designation caused by an operator, said operation means being a part of said data communication system”, requires an additional search, as the addition of the operation means being a part of the data communication system raises new issues.

Art Unit: 2722

Regarding amended ***claim 13***, the limitation of “receiving a communication result information related to data communication performed by a manual operation performed by the data communication via an operation unit which is part of the data communication system”, requires an additional search, as the addition of an operation unit being a part of the data communication system raises new issues.

Regarding amended ***claim 17***, the limitation of “designating an ID on the basis of a manual operation by an operation unit equipped with the data communication system”, requires an additional search, as the addition of an operation unit being a part of the data communication system raises new issues.

Regarding amended ***claims 18 and 19***, the limitation of “inputting a manual designation caused by an operator using an operation unit which is part of the data communication system”, requires an additional search, as the addition of an operation unit being a part of the data communication system raises new issues.

Regarding amended ***claim 20***, the limitation of “receiving a communication result information related to data communication performed by the data communication system using a manual operation unit which is a part of the data communication system”, requires an additional search, as the addition of an operation unit being a part of the data communication system raises new issues.

Art Unit: 2722

*Conclusion*

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joe Pokrzywa whose telephone number is (703) 305-0146. The examiner can normally be reached on Monday through Friday from 8:00 a.m. to 4:30 p.m.
